EXAMINER'S COMMENT/AMENDMENT

Comment

Applicants' amendment filed March 14, 2005 has been received and entered into the application. Accordingly, claims 3-5, 7, 9, 10, 12, 13 and 15 have been canceled and claims 6, 8, 11 and 14 have been amended.

Because the claims as amended are limited to a combination of compounds for which unexpected results have been demonstrated, (see the previous Office action dated January 19, 2005, especially page 3 at the third paragraph), the claim rejection under 35 U.S.C. § 103, as set forth in the previous Office action, has been overcome and is therefore withdrawn.

Amendment

An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Andrew J. Leon on March 24, 2005.

The amendment to claim 8 was suggested by the Examiner because the expression "heart failure and other edematous conditions" appears unduly limiting. It is clear from the present specification that Applicants' invention does not require that both heart failure and other edematous conditions to be treated at the same time, e.g., see the present specification at page 6, lines 14-17 and 25 where the treatment of congestive heart failure and other edematous conditions are set forth as separate therapeutic objectives.

The application has been amended as follows:

In the Drawings:

The bottom of the second sheet of drawings is partially obscured and it should read as ---
Figure 2---

In the Claims:

In claim 8, line 2, the expression "congestive heart failure and other edematous conditions" has been changed to ---congestive heart failure or other edematous conditions---; and
line 3, ---to the mammal--- has been inserted after "administering".
